

Quick Insights

- Email has the lowest response rate of 8.7%, behind Paid Social of 40.3%, and Direct Mail of 53.0%, but since it is cheap and scalable, fixing its subject lines, targeting, and personalization can grow our sales pipeline for free.
- Every marketing campaign is currently losing money ranging from NovaEdge Awareness at -\$267 to Q3 Growth Sprint at -\$381 which means we need an immediate audit of our targeting, lead quality, and costs to fix how we turn spend into revenue.
